

the winter prophet is in the air. He gives out the information that there will be a mild open season. The bears his conclusion on the fact that squirrels are not laying in their usual store of nuts and that they have made less honey than in previous years. All of which he takes as harbingers of a mild winter. It may be correct but he should not bank too much on the weather. As, say the Bluegrasses. The nuts are so infested with worms that it would be a waste of time for the squirrels to gather them. The bees, they did not make much honey because of the weather. The honey-bunches flow in during the first part of the season.

Mostly, they will sell you your Christmas markers, bed-room suites, and so on in the furniture line—at bottom prices. Come and see

Essential requirements of the Post office Department in regard to the establishment of rural service are that roads to be traveled shall be in good conditions, unobstructed by gates and that on rural routes there shall not be any unbridged or unfordable streams or creeks. These requirements have already resulted in the expenditure of thousands of dollars thruout the country; in the road improvements and bridge building by communities desiring to avail themselves of the benefits derived from rural delivery. During the last winter and spring, however, indifference was shown in some sections in regard to the condition of the roads and it became necessary to suspend the delivery.

Forecast for December.

December was the ninth month in
the old Roman calendar, and its
name is from the word "decem." When
Julius Caesar became the first emperor
of the empire, the month contained but
twenty-nine days. He added two
more—one more to make ready for
Christmas, and another to deliver
from the Greeks. Hence the saying,
"Beware of the Greeks bearing
gifts." Santa Claus was invented
by the toy manufacturers of New-
burg, Germany, where the Teddy
Bears came from.

The motto for this month will be,
"Shut the door." Mr. Roosevelt
and Mr. Bryan will be the leading
presidential candidates, and proba-
bly will continue the burning issue.
The liquor interests will build walls
around Peoria, Ill., St. Louis, Louis-
ville and Milwaukee, and their war
bulletins will make daily observations
of the movements of the Santa Claus.

The Anti-Saloon League has con-
sented to let the Winter Solstice of
this year begin at 7 p. m. on the
23d; but there must be no drinking,
and every one must be in by Curfew
the 24th will be the shortest day in
the year. This will be Saturday,
and if you are at church next day
and stay for the sermon, you will
miss the 22d, a much longer.

The moon will be full on the 19th,
and the sign of the zodiac for the
month will be Capricornus the Goat.
This will make Santa go up, and
send kids to Sunday school.

The city will spend with twenty mil-
lion dollars in the year. The city
will spend with twenty million dol-
lars in the year. The city will spend
with twenty million dollars in the year.

The money war will quite down-
unhappy circumstance—and money
travels again the pockets of our
purses. The new gold money they're
issuing now without "In God We
Trust," will turn up in the list at
fourth as prized as any dust. Back-
scrup will be retired, and real dough
will look good, but the old subscriber
will insist on paying up with gold.

On the 23d, Speaker Cannon will
assemble at Washington, where he

HON. JOSEPH G. CANNON

will read himself and resume the
enactment of law in the presence
of the Democratic minority and other
colleagues. The final edition of
the President's message will be read,
Wall street will be given another
physic, and it will be officially de-
clared that this country cannot exist
half capital and half water.

Mr. Fairbanks will take refuge in
signify of the Senate from his cock-
tail persecutors, and several new
members will be taken into that ex-
clusive club of multi millionaires.
Congress assembled will take up
great public questions like the need
for a new federal building at Potomac
and Coyote Center; the growing de-
mand for more elastic currency; and
why nobody will stay in the army at
the generous inducement of \$13 a
month and found—lead in the Phil-
ippines.

Persons born under the sign of
Capricornus the Goat are great or-
ators, thinkers and teachers, self-con-
scious and not middlemores; good
story tellers, eat too much, have
style and pride, talk too much, are
disrespectful, and can keep a secret (if
males). They are selfish, and never
get the hot end of it in an exchange
of Christmas gifts. They continue to
hang up their stockings when it is a
harsh upon others to fill them. Girls
born in Capricornus are hard
to win, generally preferring a parrot
to the stars.

The want-knif will ride the idea
where poverty prevails.
A few late inspired goose will peer
with winter on their tails.

THE A. S. OF E. COLUMN

—BY JAS. H. SAUNDERS—

We met a friend a few days ago
who wanted to know why the A. S.
of E. let the prices go down. In the
same way we might ask why the
prices of other things besides farm
products go down.

If merchants have bought goods
on time and are compelled to pay
for them, they must mark down the
prices or sell at auction, thus letting
the purchaser set the price. If any
one has bought machinery on time
and has to pay for it, he must do
the same thing. But if people quit
buying the manufacturer shuts down
his factory, the miller stops his mills
and the miner closes his mines until
the price will justify them to open up
and sell a fair price on their manu-
factures, their meal and flour, and
on their ores.

Then can any one tell us why the
farmer has not the right to do the
same thing with his corn, wheat, to-
bacco and cotton? Farm products
are so bulky and so hard to store so
that farmers do not like to handle
them. In fact, they say they cannot
afford to rebalance them at the present
prices. Then why not build ware-
houses, corn-pens, elevators, etc., at
the local depot and store their goods
or produce until the price will jus-
tify them to sell?

If the price never justifies, stop
plowing until it does, just as the min-
er stops mining, the miller stops
grinding and the manufacturer stops
manufacturing. Then not the farmer
the same right to let the farm pro-
ducts stay in the soil, that the miner
has to let the ore stay in the ground,
the manufacturer, to let his products
stay in the raw material or the mil-
ler to let his flour stay in the wheat?

Why is it a crime for the farmer
to stop work when he does not get a
fair price when all other callings
and professions do the same thing?
No doubt some one will say that the
farmer can live at the present prices.
That he has lived on them and can
still do so. In the same way we
could answer that the slaves lived on
what their owners allowed them, and
our forefathers could have lived and
paid the tax on stamps, teas, etc.

But was it right? Was it just?
Was it equity? If the United States
census shows that a dollar invested
in manufactures gives five times as
much as a dollar invested in agricul-
ture, is it not time for farmers to
make a change? If not, why not?

The farmer ought to be the freest,
most independent man on earth.
Nature has made him so, but through
his generosity, his timidity or some-
thing else he has made himself the
most dependent.

Printed By Request.

Mix the following by shaking well
in a bottle, and take in teaspoonful
after a meal and at bedtime:

Faid Extract Dandelion, one-half
ounce; Compound Kargon, one
ounce; Compound Syrup Sarsaparilla,
three ounces. A local druggist
is the authority that these simple,
harmless ingredients can be obtained
at our home druggists.

The mixture is said to cleanse and
strengthen the clogged and inactive
kidneys, overcoming Backache,
Bladder weakness and Urinary trou-
ble of all kinds, if taken before the
stage of Bright's disease.

Those who have tried this mix-
ture positively overcome pain in the
back, clear the urine of sediment
and regulate urination, especially
at night, curing even the worst forms
of bladder weakness.

Every man or woman here who
feels that the kidneys are not strong
or acting in a healthy manner should
mix this prescription at home and
give it a trial, as it is said to do
wonders for many persons.

The Scranton (Pa.) Times was
first to print this remarkable pre-
scription, in October, of 1906, since
when all the leading newspapers of
New York, Boston, Philadelphia,
Pittsburg and other cities have made
many announcements of it to their
readers.

Official Vote At Last.

With full official returns from every county in the State, the majority received by Augustus E. Willson for governor of Kentucky at the recent election, was 18,053 over Judge Hager. The returns show that Mr. Willson led his ticket by about 7,000 votes more than the balance of the ticket.

Judge Hager, too, was defeated by the largest majority of any of the Democratic candidates, John K. Hendrick losing for attorney general by the minimum majority against him, Judge Breathitt's majority only reaching 12,207 votes.

The official vote as cast, as shown by the completed tabulation today, is as follows:

Willson, Rep.	214,481
Hager, Dem.	196,428
LIEUTENANT GOVERNOR.	
Cox, Rep.	208,428
Trimble, Dem.	193,408

Will Open Store.

Charlie Moore, who has been employed in the grocery department of Ellison Bros. store, has rented the building recently vacated by V. E. Cavitt, and will open a grocery store in a very short time. It is probable that he will purchase a part of the Cavitt stock and will add a new stock to it.
